Terminal Quantity:

1

Terminal Type:

Connector, receptacle

Overall Length:

1.880 inches

Overall Height:

1.670 inches

Overall Width:

2.570 inches

Dc Voltage Rating:

27.0 volts

Environmental Protection:

Hermetically sealed

Mounting Configuration:

4 holes 0.196 in. Diameter on 1.160 in. By 1.630 in. Centers

Actuation Type:

Thermal

Adjustability:

Nonadjustable

Flashing Rate:

Between 70 per minute and 100 per minute

Duty Cycle:

0.7 seconds on

Failure Automatic Circuit Condition:

On

Accuracy In Percent:

90.0

Controlled Circuit Quantity:

1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T142-m
