Body Style:

Cylindrical frame

Body Diameter:

1.380 inches

Body Length:

0.875 inches

Case Material:

Steel

Case Surface Treatment:

Nickel

Environmental Protection:

Any acceptable

Maximum Operating Temp:

275.0 degrees fahrenheit

Actuator Diameter:

0.630 inches

Inclosure Type:

Hermetically sealed

Magnetic Coil Quantity:

1

Duty Type:

Continuous

Terminal Location:

Actuator end

Linear Force Delivered:

3.50 ounces

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A134a0
