Special Features:

Input voltage 24v dc, with internal dpdt 10amp 28v dc relay, release and recycle time 125 milliseconds typical 225 milliseconds max, with polarity protection, plastic case w/o mtg bracket or stud, external resistor not included used for time delay adjustment on operate, 1-4 watt resistor of 2 megohms required for maximum time delay, time delay 1-120 sec

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
