Special Features:

Sadjustable frequency trip range 50-60 hz, line voltage 120v ac, frequency trip point is screwdriver adjustable, m55 to p85 degrees c operating temp, output contacts one set no 1 set nc 5 amp resistive at 28v dc or 120v ac, solid state sensor with relay output, sealed steel case, no contacts close and nc contacts open at frequencies above the set point, 3.500 in. Lg, 3.000 in. W, 3.813 in. H case dim., four no. 8/0.164 in./-32 mtg studs 0.375 in. Lg spaced on 2.125 in. By 2.625 in. Mtg centers

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
