NSN 5945-00-217-3540

Electromagnetic Relay - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5945-00-217-3540 **Overall Length:** 6.000 inches **Center To Center Distance Between Mounting Facilities Parallel To Length:** 5.250 inches single mounting facility **Overall Height:** 3.000 inches **Overall Width:** 3.625 inches **Unthreaded Mounting Hole Diameter:** 0.173 inches single mounting facility **End Application:** Engine generator (eg) **Winding Quantity: Coil Quantity:** Winding Dc Resistance Rating: 11.0 kilohms single winding **Duty Type:** Continuous **Mounting Facility Type And Quantity:** 2 unthreaded hole single mounting facility **Mounting Facility Pattern:** In-line single mounting facility **Operating Current Rating And Type:** 21.0 milliamperes dc single winding Operating Voltage Rating And Type At Specificationified Temp: 230.0 volts dc 25 degrees celsius single winding Main Contact Load Current Rating At Maximum Rated Voltage: 1.0 amperes dc resistive load Main Contact Maximum Voltage Rating In Volts: **Terminal Type And Quantity:** 2 screw energizing element Shelf Life: N/a **Unit Of Measure: Demilitarization:**
