Overall Length:

5.000 inches

Overall Height:

1.250 inches

Overall Width:

2.000 inches

Environmental Protection:

Dustproof

Winding Quantity:

2

Coil Quantity:

1

Winding Dc Resistance Rating:

200.0 ohms all windings

Duty Type:

Continuous

Mounting Facility Type And Quantity:

2 threaded hole single mounting facility

Pile-up Main Contact Form Arrangement:

1c

Mounting Facility Pattern:

In-line single mounting facility

Operating Current Rating And Type:

10.0 milliamperes ac all windings

Operating Voltage Rating And Type At Specificationified Temp:

4.5 volts ac 25 degrees celsius all windings

Main Contact Load Current Rating At Maximum Rated Voltage:

1.0 milliamperes ac resistive load

Main Contact Maximum Voltage Rating In Volts:

50.0 ac

Terminal Type And Quantity:

3 wire lead energizing element

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A03300
