**Special Features:**

Input voltage 120v ac, with internal dpdt 120v ac 60 hz relay, release and recycle time 125 milliseconds typical 225 milliseconds max, with polarity protection, plastic case with mtg bracket, external resistor not included used for time delay adjustment on operate, 1-4 watt resistor of 200000 ohms required for maximum time delay, time delay 1-10 sec

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A513k0
