Overall Length:

6.500 inches

Overall Height:

3.594 inches

Overall Width:

2.688 inches

Unthreaded Mounting Hole Diameter:

0.219 inches single mounting facility

Winding Quantity:

1

Coil Quantity:

1

Winding Dc Resistance Rating:

18.0 ohms single winding

Duty Type:

Intermittent

Mounting Facility Type And Quantity:

4 unthreaded hole single mounting facility

Mounting Facility Pattern:

Circular single mounting facility

Nonpile-up Main Contact Arrangement:

4 pole, single throw, normally closed, momentary action

Operating Current Rating And Type:

1.33 amperes dc single winding

Operating Voltage Rating And Type At Specificationified Temp:

12.0 volts ac 85 degrees celsius single winding

Main Contact Load Current Rating At Maximum Rated Voltage:

100.0 amperes dc resistive load

Main Contact Maximum Voltage Rating In Volts:

29.0 dc

Special Features:

Incl mechanical interlock inverted terminals

Terminal Type And Quantity:

12 pin all functions

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A03300
