Overall Length:

4.000 inches

Overall Diameter:

2.313 inches

Contact Arrangement:

Single pole, double throw

Drive Voltage Relationship To Input Voltage:

Unequal

Drive Voltage Rating:

6.3 volts any acceptable

Drive Frequency Rating:

58.0 blank pulses per second and 60.0 blank microwatts

Contact Operation Sequence:

Breaks before makes

Contact Voltage Rating:

115.0 volts with retaining chain

Contact Current Rating:

5.0 major amperes

Phase Angle In Deg:

17.0

Plug In Mounting Feature:

Provided

Base Mounting Size Designation:

Std 6 prong socket

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T320-k
