Overall Length:

3.870 inches

Overall Height:

8.210 inches

Overall Width:

2.780 inches

Fragility Factor:

Moderately rugged

Winding Quantity:

1

Purpose For Which Designed:

General

Coil Quantity:

1

Duty Type:

Continuous

Arc Quenching Method:

Air

Storage Type:

General purpose warehouse

Operating Voltage Rating And Type At Specificationified Temp:

24.0 volts dc 25 degrees celsius single winding

Main Contact Load Current Rating At Maximum Rated Voltage:

15.0 amperes dc resistive load

Main Contact Maximum Voltage Rating In Volts:

24.0 dc

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A03300
