NSN 5945-00-259-6739

Electromagnetic Relay - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5945-00-259-6739 **Overall Length:** 1.780 inches **Center To Center Distance Between Mounting Facilities Parallel To Width:** 0.500 inches single mounting facility **Overall Height:** 1.010 inches **Overall Width:** 1.010 inches **Environmental Protection:** Hermetic **Unthreaded Mounting Hole Diameter:** 0.136 inches single mounting facility Winding Quantity: **Coil Quantity:** Winding Dc Resistance Rating: 2.0 kilohms single winding **Duty Type:** Intermittent **Arc Quenching Method:** Oil **Mounting Facility Type And Quantity:** 2 unthreaded hole single mounting facility **Mounting Facility Pattern:** In-line single mounting facility **Operating Current Rating And Type:** 75.0 milliamperes dc single winding Operating Voltage Rating And Type At Specificationified Temp: 15.0 volts dc 25 degrees celsius single winding Main Contact Load Current Rating At Maximum Rated Voltage: 2.0 amperes dc resistive load **Main Contact Maximum Voltage Rating In Volts:** 27.5 dc Shelf Life: N/a **Unit Of Measure: Demilitarization:**

No
