Overall Length:

1.780 inches

Center To Center Distance Between Mounting Facilities Parallel To Width:

0.500 inches single mounting facility

Overall Height:

1.010 inches

Overall Width:

1.010 inches

Environmental Protection:

Hermetic

Unthreaded Mounting Hole Diameter:

0.136 inches single mounting facility

Winding Quantity:

1

Coil Quantity:

1

Winding Dc Resistance Rating:

2.0 kilohms single winding

Duty Type:

Intermittent

Arc Quenching Method:

Oil

Mounting Facility Type And Quantity:

2 unthreaded hole single mounting facility

Mounting Facility Pattern:

In-line single mounting facility

Operating Current Rating And Type:

75.0 milliamperes dc single winding

Operating Voltage Rating And Type At Specificationified Temp:

15.0 volts dc 25 degrees celsius single winding

Main Contact Load Current Rating At Maximum Rated Voltage:

2.0 amperes dc resistive load

Main Contact Maximum Voltage Rating In Volts:

27.5 dc

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A03300
