Overall Length:

4.875 inches

Overall Height:

2.469 inches

Overall Width:

5.062 inches

Environmental Protection:

Dustproof

Winding Quantity:

1

Coil Quantity:

1

Winding Dc Resistance Rating:

0.6 ohms single winding

Duty Type:

Intermittent

Operating Current Rating And Type:

20.0 amperes dc single winding

Operating Voltage Rating And Type At Specificationified Temp:

12.0 volts dc 25 degrees celsius single winding

Main Contact Maximum Voltage Rating In Volts:

12.0 dc

Fsc Application Data (non-core):

Engine cranking motor, nonaircraft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A03300
