**Overall Length:**

5.062 inches

**Overall Height:**

2.375 inches

**Overall Width:**

4.375 inches

**Environmental Protection:**

Dustproof

**Winding Quantity:**

1

**Coil Quantity:**

1

**Winding Dc Resistance Rating:**

2.25 ohms single winding

**Duty Type:**

Intermittent

**Mounting Facility Type And Quantity:**

2 threaded hole single mounting facility

**Mounting Facility Pattern:**

In-line single mounting facility

**Operating Current Rating And Type:**

9.80 amperes dc single winding

**Operating Voltage Rating And Type At Specificationified Temp:**

24.0 volts dc 25 degrees celsius single winding

**Main Contact Load Current Rating At Maximum Rated Voltage:**

500.0 amperes dc resistive load

**Main Contact Maximum Voltage Rating In Volts:**

24.0 dc

**Fsc Application Data (non-core):**

Engine, except aircraft

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A03300
