Overall Length:

4.375 inches

Center To Center Distance Between Mounting Facilities Parallel To Length:

3.712 inches single mounting facility

Overall Height:

3.281 inches

Overall Width:

2.438 inches

Unthreaded Mounting Hole Diameter:

0.257 inches single mounting facility

Winding Quantity:

1

Coil Quantity:

1

Winding Dc Resistance Rating:

7.1 ohms single winding

Duty Type:

Intermittent

Mounting Facility Type And Quantity:

2 unthreaded hole single mounting facility

Mounting Facility Pattern:

In-line single mounting facility

Nonpile-up Main Contact Arrangement:

1 pole, single throw, normally open, double make, momentary action

Operating Current Rating And Type:

3.38 amperes dc single winding

Operating Voltage Rating And Type At Specificationified Temp:

24.0 volts dc 25 degrees celsius single winding

Main Contact Load Current Rating At Maximum Rated Voltage:

200.0 amperes dc resistive load

Main Contact Maximum Voltage Rating In Volts:

29.0 dc

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A03300
