## NSN 5945-00-349-4212

Electromagnetic Relay - Page 1 of 1 View Online at https://aerobasegroup.com/nsn/5945-00-349-4212 **Overall Length:** 3.370 inches Center To Center Distance Between Mounting Facilities Parallel To Length: 2.875 inches single mounting facility Center To Center Distance Between Mounting Facilities Parallel To Width: 1.000 inches single mounting facility **Overall Height:** 3.780 inches **Overall Width:** 1.810 inches **Mounting Slot Width:** 0.109 inches single mounting facility Winding Quantity: **Coil Quantity:** 

Winding Dc Resistance Rating:

20.0 ohms single winding

**Duty Type:** 

Intermittent

**Mounting Facility Type And Quantity:** 

4 slotted hole single mounting facility

**Mounting Facility Pattern:** 

Rectangular single mounting facility

**Nonpile-up Main Contact Arrangement:** 

1 pole, single throw, normally open, double make, momentary action

Operating Voltage Rating And Type At Specificationified Temp:

36.0 volts dc 25 degrees celsius single winding

Main Contact Load Current Rating At Maximum Rated Voltage:

300.0 amperes dc resistive load

Main Contact Maximum Voltage Rating In Volts:

**Terminal Type And Quantity:** 

2 threaded stud dummy

Shelf Life:

N/a

**Unit Of Measure:** 

**Demilitarization:** 

No

Fiig:

A03300
