Overall Length:

2.250 inches

Overall Height:

2.625 inches

Overall Width:

1.750 inches

End Application:

Engine generator (eg)

Contact Arrangement:

Double pole, double throw

Special Features:

10amp at 120 vac resistive; time delay 0.6 to 60.0 sec factory adjusted; input 32 vdc; polarized; std 11 pin octal plug-in; environmental protection-dust tight

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A51310
