Special Features:

Input voltage 24v dc , 20v dc , 32v dc max, with internal dpdt relay, recycle and release time 100 milliseconds typical 175 milliseconds max, with polarity protection, minus 10 to plus 55 degrees c operating temp range, white plastic case, 2.375 in. Maximum lg, 1.750 in. W, 4.122 in. H, with mtg guide pin, pin type terminals, knob adjustable time delay on release, time delay 1.0 to 10.0 sec, 20 milliamps operating current, 75 milliamps release current

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:
