Mounting Material:

Aluminum

Mounting Surface Treatment:

Painted

Overall Length:

4.251 inches

Overall Height:

4.600 inches

Overall Width:

4.251 inches

Mounting Facility:

Container

Mounting Configuration:

Two dzus fasteners on diagonal opposite corners, with 2.87 in. Spacing between centers lines

Controlling Agency:

Kdeutsch filtors relay div; deutsch filtors relay div; american machine and voundry co potter and brumfield div; electronic specialty co portland electronics div; electronic specialty co portland electronics div

Identifying Number:

12sd18sf part no. And 26s-12sc part no. And mh5334-1 part no. And r400-2c500-2 part no. And 8dgb14n4a5k1-2 part no.

Individual Relay Quantity:

9

Relay Type:

Relay-switch

Fsc Application Data:

Racks and panels, automatic pilot amplifier

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T142-b
