Overall Length:

4.109 inches

Overall Height:

2.578 inches

Overall Width:

3.750 inches

Unthreaded Mounting Hole Diameter:

0.203 inches single mounting facility

End Application:

An/fyq-47

Frequency In Hertz:

Between 50.0 and 60.0

Winding Quantity:

1

Coil Quantity:

1

Duty Type:

Intermittent

Mounting Facility Type And Quantity:

2 unthreaded hole single mounting facility

Mounting Facility Pattern:

In-line single mounting facility

Operating Voltage Rating And Type At Specificationified Temp:

110.0 volts ac 25 degrees celsius single winding

Main Contact Load Current Rating At Maximum Rated Voltage:

25.0 amperes ac inductive load

Main Contact Maximum Voltage Rating In Volts:

120.0 ac

Terminal Type And Quantity:

2 wire lead energizing element

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A03300
