Body Style:

Cylindrical frame

Case Material:

Steel

Environmental Protection:

Any acceptable

Actuator Length:

2.343 inches

Fragility Factor:

Moderately rugged

Actuator Diameter:

1.000 inches

Inclosure Type:

Fully enclosed

Duty Type:

Continuous

Terminal Location:

Both sides on actuator end

Mounting Facility Type And Quantity:

2 clamp ring

Storage Type:

General purpose warehouse

Power Takeoff Connection Type:

Double notched

Terminal Type And Quantity:

2 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A134a0
