**Overall Length:**

3.370 inches

**Center To Center Distance Between Mounting Facilities Parallel To Length:**

1.750 inches single mounting facility

**Overall Height:**

1.910 inches

**Overall Width:**

2.220 inches

**Unthreaded Mounting Hole Diameter:**

0.187 inches single mounting facility

**Winding Quantity:**

1

**Coil Quantity:**

1

**Winding Dc Resistance Rating:**

3.0 kilohms single winding

**Duty Type:**

Continuous

**Mounting Facility Type And Quantity:**

2 unthreaded hole single mounting facility

**Mounting Facility Pattern:**

In-line single mounting facility

**Nonpile-up Main Contact Arrangement:**

1 two circuit, both positions maintained

**Operating Voltage Rating And Type At Specificationified Temp:**

110.0 volts dc 25 degrees celsius single winding

**Main Contact Load Current Rating At Maximum Rated Voltage:**

200.0 milliamperes ac resistive load

**Main Contact Maximum Voltage Rating In Volts:**

5000.0 ac

**Terminal Type And Quantity:**

6 pin all functions

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A03300
