Overall Length:

3.370 inches

Center To Center Distance Between Mounting Facilities Parallel To Length:

1.750 inches single mounting facility

Overall Height:

1.910 inches

Overall Width:

2.220 inches

Unthreaded Mounting Hole Diameter:

0.187 inches single mounting facility

Winding Quantity:

1

Coil Quantity:

1

Winding Dc Resistance Rating:

3.0 kilohms single winding

Duty Type:

Continuous

Mounting Facility Type And Quantity:

2 unthreaded hole single mounting facility

Mounting Facility Pattern:

In-line single mounting facility

Nonpile-up Main Contact Arrangement:

1 two circuit, both positions maintained

Operating Voltage Rating And Type At Specificationified Temp:

110.0 volts dc 25 degrees celsius single winding

Main Contact Load Current Rating At Maximum Rated Voltage:

200.0 milliamperes ac resistive load

Main Contact Maximum Voltage Rating In Volts:

5000.0 ac

Terminal Type And Quantity:

6 pin all functions

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A03300
