Overall Length:

3.781 inches

Overall Height:

2.250 inches

Overall Width:

1.906 inches

Component Type And Quantity:

1 armature and 2 block and 2 bushing and 1 plate and 1 spacer

Special Features:

Zbracket assembly 1; bracket mtg 1; coil and support assembly 1; contact spring 1; support, contact 2; flexible tubing 1; spring, coil 1; three 0.219 in. Diameter mtg holes located on corners of isosceles triangle; cutout relay electrical system, aircraft engine

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A51110
