Overall Length:

5.060 inches

Overall Height:

2.370 inches

Overall Width:

4.680 inches

Environmental Protection:

Dustproof

Winding Quantity:

1

Coil Quantity:

1

Winding Dc Resistance Rating:

3.9 ohms all windings

Duty Type:

Intermittent

Operating Current Rating And Type:

9.80 amperes dc single winding

Operating Voltage Rating And Type At Specificationified Temp:

28.0 volts dc 25 degrees celsius single winding

Main Contact Load Current Rating At Maximum Rated Voltage:

500.0 amperes dc resistive load

Main Contact Maximum Voltage Rating In Volts:

28.0 dc

Fsc Application Data (non-core):

Starting motor assembly, diesel engine

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A03300
