NSN 5945-00-552-2201

Electromagnetic Relay - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5945-00-552-2201 **Overall Length:** 6.310 inches **Center To Center Distance Between Mounting Facilities Parallel To Width:** 1.312 inches single mounting facility **Overall Height:** 5.000 inches **Overall Width:** 3.120 inches **Unthreaded Mounting Hole Diameter:** 0.312 inches single mounting facility Winding Quantity: **Coil Quantity:** Winding Dc Resistance Rating: 4.100 kilohms single winding **Duty Type:** Continuous **Mounting Facility Type And Quantity:** 2 unthreaded hole single mounting facility **Mounting Facility Pattern:** In-line single mounting facility **Operating Current Rating And Type:** 50.0 milliamperes dc single winding Operating Voltage Rating And Type At Specificationified Temp: 250.0 volts dc 25 degrees celsius single winding Main Contact Load Current Rating At Maximum Rated Voltage: 750.0 milliamperes dc resistive load Main Contact Maximum Voltage Rating In Volts: 250.0 dc **Special Features:** Incl blow-out coil Shelf Life: N/a

Unit Of Measure: Demilitarization: No Fiig: A03300
