Overall Length:

4.090 inches

Center To Center Distance Between Mounting Facilities Parallel To Length:

0.688 inches single mounting facility

Overall Height:

2.000 inches

Overall Width:

1.000 inches

Frequency In Hertz:

60.0

Winding Quantity:

1

Coil Quantity:

1

Winding Dc Resistance Rating:

100.0 ohms single winding

Duty Type:

Intermittent

Mounting Facility Type And Quantity:

2 threaded hole single mounting facility

Pile-up Main Contact Form Arrangement:

3a1b

Mounting Facility Pattern:

In-line single mounting facility

Operating Current Rating And Type:

86.0 milliamperes ac single winding

Operating Voltage Rating And Type At Specificationified Temp:

115.0 volts ac 25 degrees celsius single winding

Main Contact Load Current Rating At Maximum Rated Voltage:

250.0 milliamperes ac resistive load

Main Contact Maximum Voltage Rating In Volts:

115.0 ac

Terminal Type And Quantity:

10 pin all functions

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A03300
