**Overall Length:**

4.090 inches

**Center To Center Distance Between Mounting Facilities Parallel To Length:**

0.688 inches single mounting facility

**Overall Height:**

2.000 inches

**Overall Width:**

1.000 inches

**Frequency In Hertz:**

60.0

**Winding Quantity:**

1

**Coil Quantity:**

1

**Winding Dc Resistance Rating:**

100.0 ohms single winding

**Duty Type:**

Intermittent

**Mounting Facility Type And Quantity:**

2 threaded hole single mounting facility

**Pile-up Main Contact Form Arrangement:**

3a1b

**Mounting Facility Pattern:**

In-line single mounting facility

**Operating Current Rating And Type:**

86.0 milliamperes ac single winding

**Operating Voltage Rating And Type At Specificationified Temp:**

115.0 volts ac 25 degrees celsius single winding

**Main Contact Load Current Rating At Maximum Rated Voltage:**

250.0 milliamperes ac resistive load

**Main Contact Maximum Voltage Rating In Volts:**

115.0 ac

**Terminal Type And Quantity:**

10 pin all functions

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A03300
