Body Style:

Cylindrical frame

Body Diameter:

1.125 inches

Body Length:

1.500 inches

Case Material:

Metal

Environmental Protection:

Any acceptable

Fragility Factor:

Moderately rugged

Inclosure Type:

Fully enclosed

Magnetic Coil Quantity:

1

Duty Type:

Continuous

Terminal Location:

Actuator end

Voltage Rating In Volts:

30.0 dc

Storage Type:

General purpose warehouse

Actuator Stroke Type:

Pull

Power Takeoff Connection Type:

Plain

Terminal Type And Quantity:

2 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A134a0
