Overall Length:

2.370 inches

Overall Height:

4.180 inches

Overall Width:

5.060 inches

Environmental Protection:

Dustproof

Winding Quantity:

1

Coil Quantity:

1

Winding Dc Resistance Rating:

15.0 ohms single winding

Duty Type:

Intermittent

Mounting Facility Type And Quantity:

2 unthreaded hole single mounting facility

Mounting Facility Pattern:

In-line single mounting facility

Operating Current Rating And Type:

1.50 amperes dc single winding

Operating Voltage Rating And Type At Specificationified Temp:

24.0 volts dc 25 degrees celsius single winding

Main Contact Load Current Rating At Maximum Rated Voltage:

20.0 amperes dc resistive load

Main Contact Maximum Voltage Rating In Volts:

24.0 dc

Special Features:

4 terminal lugs furnished w/relay

Fsc Application Data (non-core):

Engine except aircraft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A03300
