Overall Length:

2.340 inches

Center To Center Distance Between Mounting Facilities Parallel To Width:

1.531 inches single mounting facility

Overall Height:

2.530 inches

Overall Width:

1.200 inches

Environmental Protection:

Hermetic

Unthreaded Mounting Hole Diameter:

0.172 inches single mounting facility

Winding Quantity:

1

Coil Quantity:

1

Winding Dc Resistance Rating:

6.8 kilohms single winding and 8.3 kilohms single winding

Duty Type:

Continuous

Mounting Facility Type And Quantity:

2 unthreaded hole single mounting facility

Mounting Facility Pattern:

In-line single mounting facility

Operating Current Rating And Type:

10.0 milliamperes dc single winding

Operating Voltage Rating And Type At Specificationified Temp:

135.0 volts dc 25 degrees celsius single winding

Main Contact Load Current Rating At Maximum Rated Voltage:

10.0 amperes dc inductive load

Main Contact Maximum Voltage Rating In Volts:

30.0 dc

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A03300
