# NSN 5945-00-682-9008

Electromagnetic Relay - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5945-00-682-9008

# **Overall Length:**

2.340 inches

# Center To Center Distance Between Mounting Facilities Parallel To Width:

1.531 inches single mounting facility

# **Overall Height:**

2.530 inches

## Overall Width:

1.200 inches

## **Environmental Protection:**

Hermetic

# Unthreaded Mounting Hole Diameter:

0.172 inches single mounting facility

# Winding Quantity:

1

**Coil Quantity:** 

1

#### Winding Dc Resistance Rating:

6.8 kilohms single winding and 8.3 kilohms single winding

#### **Duty Type:**

Continuous

#### Mounting Facility Type And Quantity:

2 unthreaded hole single mounting facility

#### Mounting Facility Pattern:

In-line single mounting facility

#### **Operating Current Rating And Type:**

10.0 milliamperes dc single winding

#### Operating Voltage Rating And Type At Specificationified Temp:

135.0 volts dc 25 degrees celsius single winding

#### Main Contact Load Current Rating At Maximum Rated Voltage:

10.0 amperes dc inductive load

#### Main Contact Maximum Voltage Rating In Volts:

30.0 dc

#### Shelf Life:

N/a

## Unit Of Measure:

---

#### Demilitarization:

No

Fiig:

A03300
