Overall Length:

2.250 inches

Overall Height:

2.560 inches

Overall Width:

2.180 inches

Winding Quantity:

1

Coil Quantity:

1

Winding Dc Resistance Rating:

1.000 kilohms single winding

Duty Type:

Continuous

Arc Quenching Method:

Air

Mounting Facility Type And Quantity:

2 threaded hole single mounting facility

Features Provided:

Polarized

Mounting Facility Pattern:

In-line single mounting facility

Operating Current Rating And Type:

4.5 milliamperes dc single winding

Main Contact Load Current Rating At Maximum Rated Voltage:

5.0 amperes ac inductive load

Main Contact Maximum Voltage Rating In Volts:

115.0 ac

Terminal Type And Quantity:

2 wire lead contacts

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A03300
