Overall Length:

1.030 inches

Center To Center Distance Between Mounting Facilities Parallel To Length:

0.784 inches single mounting facility

Overall Height:

0.680 inches

Overall Width:

0.310 inches

Environmental Protection:

Hermetic

Unthreaded Mounting Hole Diameter:

0.096 inches single mounting facility

Winding Quantity:

1

Coil Quantity:

1

Winding Dc Resistance Rating:

1.5 kilohms single winding

Duty Type:

Continuous

Mounting Facility Type And Quantity:

2 unthreaded hole single mounting facility

Mounting Facility Pattern:

In-line single mounting facility

Operating Voltage Rating And Type At Specificationified Temp:

32.0 volts dc 25 degrees celsius single winding

Main Contact Load Current Rating At Maximum Rated Voltage:

1.0 amperes dc inductive load

Main Contact Maximum Voltage Rating In Volts:

32.0 dc

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A03300
