NSN 5945-00-905-3935

Electromagnetic Relay - Page 1 of 1 View Online at https://aerobasegroup.com/nsn/5945-00-905-3935 **Overall Length:** 1.030 inches **Center To Center Distance Between Mounting Facilities Parallel To Length:** 0.784 inches single mounting facility **Overall Height:** 0.680 inches **Overall Width:** 0.310 inches **Environmental Protection:** Hermetic **Unthreaded Mounting Hole Diameter:** 0.096 inches single mounting facility Winding Quantity: **Coil Quantity:** Winding Dc Resistance Rating: 1.5 kilohms single winding **Duty Type:** Continuous **Mounting Facility Type And Quantity:** 2 unthreaded hole single mounting facility **Mounting Facility Pattern:** In-line single mounting facility Operating Voltage Rating And Type At Specificationified Temp: 32.0 volts dc 25 degrees celsius single winding Main Contact Load Current Rating At Maximum Rated Voltage: 1.0 amperes dc inductive load Main Contact Maximum Voltage Rating In Volts: 32.0 dc Shelf Life: N/a **Unit Of Measure:**

Demilitarization:

No Fiig: A03300
