# NSN 5945-00-929-7350

Electromagnetic Relay - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5945-00-929-7350

# **Overall Length:**

1.480 inches

## Center To Center Distance Between Mounting Facilities Parallel To Length:

1.000 inches single mounting facility

# **Overall Height:**

0.400 inches

### **Overall Width:**

1.180 inches

### **Environmental Protection:**

Hermetic

## **Unthreaded Mounting Hole Diameter:**

0.096 inches single mounting facility

## Winding Quantity:

1

## **Coil Quantity:**

1

## Winding Dc Resistance Rating:

4.0 kilohms single winding

# Duty Type:

Continuous

# Mounting Facility Type And Quantity:

2 unthreaded hole single mounting facility

### Mounting Facility Pattern:

In-line single mounting facility

# **Operating Current Rating And Type:**

3.2 milliamperes dc single winding

# Operating Voltage Rating And Type At Specificationified Temp:

26.0 volts dc 25 degrees celsius single winding

# Main Contact Load Current Rating At Maximum Rated Voltage:

2.0 amperes dc inductive load

# Main Contact Maximum Voltage Rating In Volts:

28.0 dc

# Shelf Life:

N/a

# Unit Of Measure:

--

# Demilitarization:

No

Fiig:

A03300
