Body Style:

Base end actuator

Body Diameter:

1.906 inches

Body Height:

2.340 inches

Case Material:

Any acceptable

Case Surface Treatment:

Any acceptable

Actuator Diameter:

Between 0.249 inches and 0.250 inches

Inclosure Type:

Hermetically sealed

Magnetic Coil Quantity:

1

Electrical Resistance:

18.20 ohms

Duty Type:

Continuous

Terminal Location:

Actuator end

Voltage Rating In Volts:

28.0 dc

Actuator Stroke Type:

Rotary

Power Takeoff Connection Type:

Flatted both sides

Terminal Type And Quantity:

2 threaded stud

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A134a0
