Special Features:

Input power- 115 vdc, rated from 108-118 vac full-wave rectified at 320to 980 hz, coil resistance-560 porm 55 ohms, dielectric strength- 1060 vrms (60 hz) between coil and case for one minute without flashout-flash over or current drain in excess of .002 amp.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
