Overall Length:

3.940 inches

Overall Height:

2.623 inches

Overall Width:

3.170 inches

End Application:

C130e acft, instrument flight simulator

Features Provided:

Hermetically sealed

Special Features:

Storage temp -65/+150 degrees c; used to sense voltage, freq and phase characteristics of 3 phase power lines

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A51310
