

View Online at <https://aerobasegroup.com/nsn/5945-01-124-8590>

Operating Temperature Range:

-65.0/+125.0 degrees celsius

Contact Arrangement:

Single pole, double throw

Criticality Code Justification:

Feat

Special Features:

A failure rate 3.0 pct; 1.0 amp resistive at 28 vdc; input data: 5 vdc, 125 ohms resistance, transistor driven w/diode suppression; wire leads; 0.370 in. Maximum lg; 0.370 in. Maximum dia; established reliability

Specification Data:

81349-mil-r-28776/4 government specification

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A51310
