Overall Length:

6.745 inches

Overall Height:

2.000 inches

Overall Width:

6.400 inches

End Application:

F-16 aircraft

Component Type And Quantity:

1 printed wiring board and 5 relay and 1 transformer

Special Features:

Resistor network 2; diode assembly 1; relay matrix assembly to add secure voice; intercommunications-crew compartment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A51110
