**Overall Length:**

7.560 inches

**Center To Center Distance Between Mounting Facilities Parallel To Length:**

6.718 inches single mounting facility and 6.781 inches single mounting facility

**Center To Center Distance Between Mounting Facilities Parallel To Width:**

2.970 inches single mounting facility and 3.030 inches single mounting facility

**Overall Height:**

6.320 inches

**Overall Width:**

4.000 inches

**Unthreaded Mounting Hole Diameter:**

0.310 inches single mounting facility

**Frequency In Hertz:**

400.0

**Winding Quantity:**

1

**Coil Quantity:**

1

**Duty Type:**

Intermittent

**Mounting Facility Type And Quantity:**

4 unthreaded hole single mounting facility

**Mounting Facility Pattern:**

Rectangular single mounting facility

**Nonpile-up Main Contact Arrangement:**

3 pole, double throw, both positions maintained

**Operating Voltage Rating And Type At Specificationified Temp:**

40.0 volts dc 25 degrees celsius single winding

**Main Contact Load Current Rating At Maximum Rated Voltage:**

10.0 amperes dc resistive load

**Main Contact Maximum Voltage Rating In Volts:**

24.0 dc

**Special Features:**

5 dummy terminals

**Terminal Type And Quantity:**

15 screw all functions

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A03300
