Body Style:

Cylindrical frame

Body Diameter:

0.880 inches

Body Length:

1.560 inches

Environmental Protection:

Explosion proof and fungus resistant and shock proof and vibration proof

End Application:

Aircraft sh-60b

Magnetic Coil Quantity:

1

Duty Type:

Continuous

Voltage Rating In Volts:

28.0 dc

Current Rating:

1.5 amperes

Actuator Stroke Type:

Pull

Energizing Stroke Maximum Length:

0.170 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A134a0
