Overall Length:

6.745 inches

Overall Height:

2.000 inches

Overall Width:

6.400 inches

End Application:

Aircraft f-16

Component Type And Quantity:

1 printed wiring board and 5 relay and 1 transformer

Special Features:

Resistor network 2; diode assembly 1; relay matrix assembly, to provide secure voice; f-16 acft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A511I0
