**Overall Length:**

6.745 inches

**Overall Height:**

2.000 inches

**Overall Width:**

6.400 inches

**End Application:**

Aircraft f-16

**Component Type And Quantity:**

1 printed wiring board and 5 relay and 1 transformer

**Special Features:**

Resistor network 2; diode assembly 1; relay matrix assembly, to provide secure voice; f-16 acft

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A51110
