Special Features:

Spstno; 80 amps one cycle surge; 24 amps overload, 1 sec rms (current); 3 to 32 vdc control signal range, (reverse polarity protected); 3.0 vdc maximum pick-up; 1.0 vdc min drop-out; 1500 ohms, typical input impedance; 250 vac maximum line voltage; 10 amp maximum load current; screw terminals; 2.250 in. Lg; 1.750 in. W; 0.875 in. H; two 0.187 in. Diameter mtg holes spaced 1.875 in. C to c

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
