Contact Arrangement:

Single pole, double throw

Features Provided:

Transistor driven

Special Features:

0.040 cu. In.; moderately rugged item; polarized; terminal mtd; wt 3.98 grams; 18 vdc supply voltage; 2300 ohms coil resistance; 3.0 pct failure rate; 500 ma at 115 vac; 1.0 amp at 28 vdc; 100 ma at 28 vdc for lamp; 7.5 ms turn-off time; 3.5 ms turn-on time; electromechanical output w/diode coil suppression

Specification Data:

81349-mil-r-28776/4 government specification

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A51310
