**Fragility Factor:**

Moderately rugged

**End Application:**

Valve gate

**Winding Quantity:**

1

**Purpose For Which Designed:**

General

**Coil Quantity:**

1

**Duty Type:**

Continuous

**Arc Quenching Method:**

Air

**Storage Type:**

General purpose warehouse

**Operating Voltage Rating And Type At Specificationified Temp:**

120.0 volts ac 25 degrees celsius single winding

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A03300
