Fragility Factor:

Moderately rugged

End Application:

Valve, gate

Winding Quantity:

1

Purpose For Which Designed:

General

Coil Quantity:

1

Duty Type:

Continuous

Arc Quenching Method:

Air

Storage Type:

General purpose warehouse

Operating Voltage Rating And Type At Specificationified Temp:

110.0 volts dc 25 degrees celsius single winding

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A03300
