Terminal Quantity:

4

Terminal Type:

Wire lead

Overall Length:

3.500 inches

Overall Height:

3.281 inches

Overall Width:

2.906 inches

Dc Voltage Rating:

120.0 volts

Frequency Rating:

50.0 hertz and 60.0 hertz

Environmental Protection:

Vibration resistant

End Application:

Radio communications link (rcl)

Mounting Configuration:

Panel mount

Adjustability:

Nonadjustable

Special Features:

load 15 amps; fpm 30 plus-or minus 5; function: flasher, tower lighting; reference data: ti 6540.3, pg 4-26

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T142-m
